```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1. **Warning** Consider adding a `lang` attribute to the `html` start tag to declare the language of this document.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends "base.html" %}↔{% b1
```

For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).

If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).

2. **Error** Non-space characters found without seeing a doctype first. Expected

```
<!DOCTYPE html>.
```

[From line 1, column 1; to line 1, column 25](#)

```
{% extends "base.html" %}↔{% b1
```

3. **Error** Element `head` is missing a required instance of child element `title`.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends "base.html" %}↔{% b1
```

Content model for element [head](#):

If the document is [an iframe srcdoc document](#) or if title information is available from a higher-level protocol: Zero or more elements of [metadata content](#), of which no more than one is a [title](#) element and no more than one is a [base](#) element.

Otherwise: One or more elements of [metadata content](#), of which exactly one is a [title](#) element and no more than one is a [base](#) element.

4. **Error** Bad value `{{ url_for('edit_recipe', recipe_id=recipe._id) }}` for attribute `action` on element `form`: Illegal character in path segment: `{` is not allowed.

[From line 7, column 13; to line 7, column 110](#)

```
<form class="col s12" method="POST" action="{{ url_for('edit_recipe',
recipe_id=recipe._id) }}">
```

5. **Error** Bad value `{{url_for('static', filename='images/no-image.jpg')}}` for attribute `src` on element `img`: Illegal character in path segment: `{` is not allowed.

[From line 15, column 41; to line 16, column 86](#)

```

```

6. **Error** Text not allowed in element `select` in this context.

[From line 36, column 1; to line 36, column 72](#)

```
</option>{% for category in categories %}
```

Content model for element `select`:

Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.

7. **Error** Text not allowed in element `select` in this context.

[From line 37, column 1; to line 37, column 99](#)

```
gories %}{% if category.category_name ==
recipe.category_name %}
```

Content model for element `select`:

Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.

8. **Error** Text not allowed in element `select` in this context.

[From line 41, column 1; to line 41, column 54](#)

```
</option>{% else %}
```

Content model for element `select`:

Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.

9. **Error** Text not allowed in element `select` in this context.

[From line 45, column 1; to line 45, column 55](#)

```
</option>{% endif %}
```

Content model for element `select`:

Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.

10. **Error** Text not allowed in element `select` in this context.
[From line 46, column 1; to line 46, column 52](#)

```
endif %}↵                                {% endfor %}↵
```

Content model for element `select`:
Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.

11. **Error** Text not allowed in element `select` in this context.
[From line 55, column 1; to line 55, column 87](#)

```
</option>↵                                {% for difficulty_level in
